

Controlled Hunt Information

Controlled hunt is a term used to describe a hunt with a limited number of tags, unlike a general season, which allows unlimited numbers of hunters. Controlled hunts are often desirable because of location and timing, and success rates are usually higher than general season hunts. Controlled hunt tags are allocated by a random drawing.

Application Dates

Key dates:

- **Moose, bighorn sheep, and mountain goat: April 1-30.**
- **Successful applicants will be notified by June 10.**
- **Second drawing application period: June 15-25.**
- **Second drawing June 30.**

To apply, see instructions page 37. Controlled hunt applications may be submitted at any hunting and fishing license vendor, Fish and Game office, by telephone at 1-800-554-8685, or online at <http://fishandgame.idaho.gov>. (Rules for deer, elk, pronghorn and black bear controlled hunts are different and covered in their own brochure and Website section.)

Notice: A person may apply for only one species. Any person applying for any moose, bighorn sheep, or mountain goat hunt is prohibited from applying for any other big game controlled hunt in the same year. Except: They may apply for a controlled depredation hunt for deer, elk, or pronghorn, a controlled black bear hunt, or leftover deer, elk or pronghorn controlled hunt tag, an unlimited controlled hunt, or extra deer, elk, pronghorn, or turkey hunt.

Roads, Trails, Motor Vehicles and Wildlife

What You Need to Know

Motor vehicles, from pickups and SUVs to motorcycles and ATVs, have changed hunting and some of those changes have created challenges for hunters, land managers and wildlife. Consider the following:

- Roads that are open to motor vehicles increase access into big game habitat, and, as a result, the number of hunters increases. Generally, the number of hunters in an area is directly related to the number of roads.
- The combination of more hunters and their increased mobility in roaded areas increases the vulnerability of deer and elk to harvest. Deer and elk in a heavily roaded area are more likely to be killed during the hunting season, and for that reason these areas have fewer old bulls or bucks. It also means that hunting seasons have to be shorter to prevent over harvest.
- Research shows that slow moving vehicles on primitive roads and trails are more disturbing to elk than fast moving vehicles on highways. Slow moving vehicles traveling cross-country have the same effect. Deer and elk often flee from the sound of motor vehicles and may leave the area.
- Cross-country travel with motor vehicles can create a network of new travel ways that cause erosion, spread noxious weeds, and

damage fish and wildlife habitats. Much of this cross-country travel occurs during the hunting season. To reduce these impacts, Idaho's land and wildlife managers ask all hunters using motorized vehicles to stay on roads and trails and use designated routes where they are established. Do not travel cross-country with a motor vehicle.

Look for Designated Routes on Public Lands

- The U.S. Forest Service and Bureau of Land Management have already established designated routes in several areas of Idaho. Please pay attention to the travel system in the areas you hunt.

For more information about travel management on Idaho's Federal lands, contact these offices or websites:

- U.S. Forest Service 208-373-4007 website: www.fs.fed.us.
- Bureau of Land Management 208-373-4007 website: www.id.blm.gov.

Access management helps wildlife and hunters. Please observe established road closures and access restrictions. Report road closure violations by calling 1-800-632-5999, or any Idaho Fish and Game, BLM or U.S. Forest Service office.

Motor Vehicle Use

Wisely managing roads, trails and motor vehicles will:

- Yield more old bucks and bulls.
- Permit more hunting opportunity.
- Allow longer seasons.
- Decrease erosion.
- Reduce conflicts.
- Reduce damage to habitat and the spread of noxious weeds.

Best of all, it will make hunting better.

Remember!

- **Observe road closures and access restrictions.**
- **Say no to cross-country travel.**
- **Stay on roads and trails open to motorized travel.**
- **Use designated routes where they're established.**
- **Follow Idaho's *Motorized Hunting Rule*.**

Motorized Hunting Rule

To resolve many hunters' concerns about off-road travel, the Fish and Game Commission has adopted restrictions on motor vehicle use while hunting big game. The restricted units are: 29, 30, 30A, 32, 32A, 36A, 37, 37A, 39 (muzzleloader hunt only), 45, 47, 49, 50, 51, 52, 52A (muzzleloader hunt only), 53, 56, 58, 59, 59A, 66, 66A, 69, 70, 72 (late season), 73, 75, 76, 77, and 78.

Motorized Hunting Restrictions

The use of motorized vehicles by hunters as an aid to hunting big game animals is restricted in certain areas. This use restriction is in addition to all federal, state and local laws, rules, regulations, ordinances and orders; including, but not limited to, any motorized vehicle licensing, registration, and permitting requirements and traffic laws. Hunters must comply with all motorized vehicle limits or prohibitions instituted by the landowner or land manager. Also, this use restriction rule is not an exception from, and is in addition to, the statutory prohibition against hunting from or by the use of any motorized vehicle set forth in Idaho Code Section 36-1101(b)(1).

Use Restriction. In designated areas and hunts, hunters may use motorized vehicles only on established roadways that are open to motorized traffic and capable of being traveled by full-sized automobiles. Any other use by hunters is prohibited. All off-road use by hunters is prohibited.

Exceptions. This use restriction rule shall not apply to the following permissible motorized vehicle uses:

- a. Holders of a valid Handicapped Person's Motor Vehicle Hunting Permit may use a motorized vehicle as allowed by the land owner or manager.

- b. Hunters may use a motorized vehicle to retrieve downed game if such travel is allowed by the land owner or manager.
- c. Hunters may use a motorized vehicle to pack camping equipment in or out if such travel is allowed by the land owner or manager, but hunters may not hunt while packing camping equipment.
- d. Private landowners, their authorized agents and persons with written landowner permission, may use a motorized vehicle on their private land, but they may not hunt from or by the use of any motorized vehicle.

Restricted Areas and Hunts. This motorized vehicle use restriction applies to identified areas and hunts in all big game management units. Hunts and areas with a motorized hunting use restriction are identified in each big game season and rules brochure.

Defined Terms

- a. A full-sized automobile is any motorized vehicle with a gross weight in excess of 1,500 pounds.
- b. An established roadway is as any road built, maintained, approved or designated by any government entity or private landowner for the purpose of travel by full-sized automobiles. An established roadway shows evidence of repeated use by full-sized automobiles, and may include a traveled way of natural earth with depressed wheel tracks and little or no vegetation in the tracks.
- c. A hunter is a person engaged in the activity of hunting as defined in Idaho Code Section 36-202(j). *"Hunting" means chasing, driving, flushing, attracting, pursuing, worrying, following after or on the trail of, shooting at, stalking, or lying in wait for, any wildlife whether or not such wildlife is then or subsequently captured, killed, taken, or wounded. Such term does not include stalking, attracting, searching for, or lying in wait for, any wildlife by an unarmed person solely for the purpose of watching wildlife or taking pictures thereof.*

Highway rights-of-way: The entire width between the boundary lines of every highway publicly maintained when any part is open to the use of the public for vehicular travel, with jurisdiction extending to the adjacent property line, including sidewalks, shoulders, berms and rights-of-way not intended for motorized traffic. No person shall shoot from a public highway or discharge any firearm from or across a public highway.

Special Vehicle Restrictions

State and federal agencies and private landowners have established road closures in key big game areas to protect deer and elk populations. Please check with regional Fish and Game, U.S. Forest Service, or Bureau of Land Management offices for information regarding vehicle restrictions on roads, trails, and unroaded areas.
